

How to update firmware of Renault ECU Tool to version V0000.0009 (If firmware version is lower than 0000.0009)

1. Connect USB cable from PC to Renault ECU Tool. Leave OBDII cable disconnected
2. Run **Renault ECU Tool** application
3. Choose **Firmware Update** from **Select Tool** menu
4. Open firmware file **FW_V09.bin**
5. Press **Update** button
6. Disconnect and reconnect USB cable
